

2017 Product Trade-In Program

Why spend good money overhauling or repairing old, obsolete cargo hook equipment? Trade it in towards the purchase of a new hook from Onboard Systems! Our replacement hook kits give you the latest safety innovations and design improvements, and will lower your on-going maintenance costs considerably.

The following table shows you what to expect for your trade-in equipment (all values are listed in US dollars). Please note that the trade-in credit is only valid towards the purchase of equivalent systems—hook for hook, suspension for suspension, etc. Only one trade-in credit can be applied towards each purchased Onboard Systems hook, and credits cannot be combined with any other discounts or promotional offers.

Customer is responsible for all shipping, freight, duties and taxes associated with returning the trade-in product to Onboard Systems. The “Notes” column outlines the parts that must be sent in to receive the full trade-in credit.

| Trade-In Product | Credit | Notes |
|--|----------------|---|
