Hi Bruce,

Chris and I are working on the UK recommendation.

We have noticed that some of the OpSpecs for ODBR are due for updating and A001 will require a change due to it currently only shows your EASA authorization. The updated template now only shows a "Bi-Lateral Authorization". The new OpSpecs are signed and issued. See the attached PDF portfolio. You will need to keep the signed copies and Table of Contents for your records.

I will need to have you sign them and scan and then email back to me. They are needed to send with the recommendation form.

Let me know if there are any questions and have a great day.
